

Active Living Program

Michael A Riffel High School offers grade 9 students in the second semester an opportunity to enrol in an integrated curriculum active living program. The Riffel program, "Adventures in Learning and Leadership" offers a unique learning opportunity for our students.

This exciting, new program breaks down the walls of the traditional school setting by bringing students into the outdoors to experience learning in a whole new way. This adventure in learning presents the curriculum through a more thematic approach with many team-building activities to help the students to develop enhanced self-esteem and cooperative skills. Students are also given the opportunity to focus on developing their leadership skills and building a sense of community with their peers and mentors involved in the program.
