**Appendix A**  
**Process to Establish, Change or Terminate a Preschool or Childcare Program**

**1. Establishing a Preschool or Childcare Program**

- a. The SBA will discuss the possibility of having a *Preschool or Childcare* program with their staff, identifying benefits as well as potential disruptions to the school. This discussion should occur in February, in advance of launching either program in the next school year.
- b. If decision is to proceed with providing a *Preschool or Childcare* Program, approval is required by the School Superintendent and reviewed by the Controller of Plant and Accommodation Services.
- c. Once approved, the SBA will survey/gather feedback from the school community as a whole and make a decision whether to move forward or not.
- d. If a decision has been made to move forward with obtaining a third party service provider, it is important to make sure that the competition process is fair and equitable, using the parameters below:
  - i. If possible, obtain at least three submissions, these can be obtained through:
    - Advertising on the school website and/or contacting service providers directly that may already be serving the school division in this capacity.
    - Each application shall contain documentation of general parent support and a written program proposal outlining the type of program and program implementation details, including a proposed fee schedule, number of students required to run the program.
  - ii. The SBA will evaluate the submissions in a fair and impartial manner and select the successful proponent.
  - iii. The SBA will send a letter of endorsement to the CFO and School Superintendent.
  - iv. The CFO will send an agreement to the service provider, and upon signing and securing of certificate of insurance, an executed copy of the agreement will be provided to the school based administrator.
  - v. The school and service provider are then able to advertise the program.

**2. Change of Service Provider**

There may be situations where the service provider is not meeting the needs of the school community. It is up to the school based administrator to engage parent feedback of the issues brought forward.

If it is determined that the service provider is no longer meeting the needs of the school, SBA will inform the CFO and School Superintendent and a letter will be sent out by the CFO advising the provider that the contract will not be renewed.

The SBA will follow the process above in obtaining a new provider. Activities required to change the service provider should commence in February in advance of the new service provider offering the program in the following September.

### 3. **Termination of Program**

There may be situations where the *Preschool or Childcare* Program is no longer viable or is not supported by the school community.

Terms of agreements are such that renewals are administered yearly unless otherwise stated in their agreement. If the contract is not to be renewed, the SBA will notify the CFO and School Superintendent and a letter will be sent to the service provided by the CFO indicating the agreement will not be renewed.
