R Student Supports:

- Career Spotlights are one-hour virtual experiences where students can learn about a career of interest. They typically occur during the lunch hour, so students can tune in and learn about a career of interest while on their lunch break. Please review the list of Career Spotlights on the [Riffel Student Services website](#). There are a variety of Career Spotlights that have taken place already, and the recorded versions are all available at www.rdiec.ca. Please check them out!
- Please have your child check out myBlueprint.ca – it is a wonderful tool to assist in reviewing your child’s strengths and learning styles as they relate to career and post-secondary planning. There are many tools and activities to explore within the site, including a user-friendly resume builder. Please review the [start-up information here](#), and if students need further assistance linking up with myBlueprint, have them visit Student Services.
