

## Principal's Report

January 10, 2018

- Grade 6's attended curling in November/December.
- Earth Rangers once again presented to an interested student body.
- Student Involved Conferences @ St. Josaphat had almost 100% of student families attend.
- Volleyball has wrapped up for sport, and has been replaced by basketball.
- Each class completed their service projects for Advent. We had a weekly liturgy during Advent also. St. Josaphat will find an Advent Celebration that will involve K-2 students next year at minimum, and possibly more grades depending upon venue and script. Upper grades will hopefully continue the service project efforts, and perhaps look at other alternatives in addition to the service.
- Cross Country skiing was slated for Grade 7's, but is cancelled until further notice due to lack of snow.
- Grade 8's are looking to complete an Outdoor Education experience later this month with a 2 night trip to Mother Theresa Center at Kenosee.
- We will have a New Year's mass on Tuesday, January 30 in our gym – all are welcome (please see website for confirmed time).
- Gifts provided to the classrooms on behalf of the CSCC were greatly appreciated – luckily we haven't had any indoor recesses yet though!
- Both girls and boys change rooms have had the lockers removed. Benches have been installed and pegs hung on the wall instead. A great improvement in the space has been realized. In addition, within the next few weeks, we are expecting the stalls in the toilet area to be replaced, and the ceiling painted in the bathrooms.
