Excursions	My child has permission to go on teacher planned and teacher supervised out of school excursions within the City of Regina. This permission is given on the understanding that the excursion is part of the regular class work. The teacher will provide information regarding each excursion prior to the planned activity by either a letter, email or a signed note in the agenda. Out of city excursions will have a separate consent form and will be sent with detailed information prior to the trip.		
Canada's Anti-Spam Law	Canada's Anti-Spam Law (CASL) came into effect on July 1, 2014. CASL prohibits sending commercial electronic messages (CEM) to an electronic address unless the sender has the consent of the recipient. CEM must also have prescribed content such as sender identification, sender contact information, and an "unsubscribe" mechanism. The vast majority of information distributed by the RCSD and your school is operational, not commercial, and is therefore not affected by this legislation. That said, some school newsletters and communications may sometimes include messages that fall under the scope of the anti-spam legislation. We are therefore requesting your consent to communicate with you electronically regarding activities that might be characterized as commercial, such as invitations to purchase school photographs, team or school wear, yearbooks, whether the Division or the school send those messages directly to you or include them in electronic publication such as newsletters. You may revoke your consent to receive these messages at any time by contacting your local school or by using the "unsubscribe" instructions that the RCSD will provide in any communications that could be considered a CEM.
